Urban development concept on the former schoolyard of Pestalozzischule

The plot with the school building had to be examined in terms of different housing concepts regarding size, standard and ownership models

A central aspect was the school building which should be reused to house a co-building group with their community space.

The proposed urban development envisions a central square reaching out for its surroundings.

Appartements range from 50 m<sup>2</sup> to 130 m<sup>2</sup>.

<b>gross area</b>	5011 m <sup>2</sup>	<b>competition</b>
